PDI Z9TV-G 9" Arm-Mounted Color TV U/L Hospital Approved

FEATURES:

Multi-Voltage AC/DC Operation

18-35 VAC at 50 Watts
18-33 VDC at 50 Watts

On-Screen Menu Displays

On-screen displays confirm adjustments as you make them. To prevent patients tampering with setup settings, IR remote is required to adjust settings (IR remote not included).

Auto Search (Auto Channel Search)

Automatically finds and stores active channels for quick scanning. Requires IR remote.

Erase-Write (Channel Scan Delete/Add)

Delete (erase) unwanted or seldom viewed channels or add (write) new channels at any time. Requires IR remote.

Programmable Start Channel

Allows television to be programmed to specific start-up channel every time set is turned on.

Speaker Enable/Disable

Internal speaker is able to be switched off allowing sound to only come through earphone jack

Medical Grade Membrane Switches

Sealed membrane switches provide dependable protection against liquid penetration, while allowing easy cleaning and infection control. Tactile stainless steel domes provide positive feel and feedback to patients.

Multi Lingual Menu and On Screen Display

All menu functions and on screen displays are able to be displayed in either English, Spanish or French.

Individually Programmable Tiers

Each tier can be programmed individually making basic and premium rentals options very accessible. Once programmed, tiers can be copied and shared, simplifying set-up.

Patient Activated Rental

Front mounted button allows patients to quickly access premium rental channels. This option is easily disabled thru menu if feature is not desired.

Rental Display LED

Easily viewed LED's allow quick and easy confirmation of rental levels and payment options.

Forward Facing Speaker and Earphone Jack

By locating the speaker in the front of the set we are able to better direct sound to the patient providing excellent sound quality and clarity without creating unnecessary volume levels.

Cabinet

Euro-style high impact plastic cabinet designed expressly for the Healthcare market. Cabinet back and sides are contoured for aesthetic looks and feel. Cabinet has integral handle to allow patients easy positioning of television for optimum viewing.

Cabinet Size/ Weight

10.5" Wide x 13" Deep x 12" High
14.5 Pounds
